

# INTRODUCING

# Accell<sup>®</sup>

## A THERAPEUTIC NUTRITIONAL BEVERAGE MIX

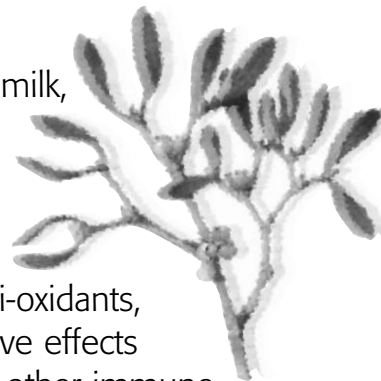

### Accell's<sup>®</sup> Key Features

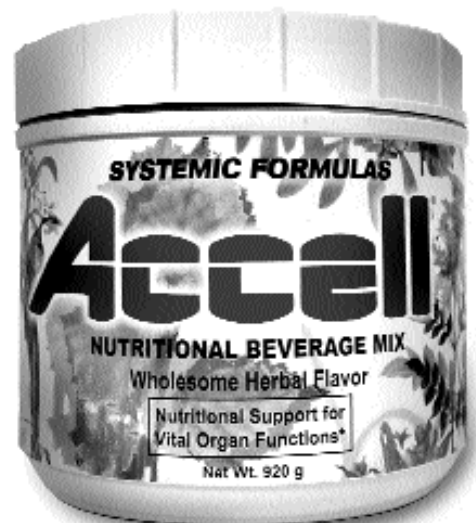

- A 10 to 8 ratio of Protein to Carbohydrate provides both the tissue building blocks as well as energy while maintaining a low glycemic index.
- Enhanced protein matrix - the limiting essential amino acids inherent in rice protein are enhanced by the addition of amino acids to form a higher bio-availability protein base.
- No fat, cholesterol free. Fats are omitted from the formula to avoid rancidity; essential fatty acids are provided via another formula Systemic Formula's Nutri-Fiber in capsule form.

● Does not contain allergenic ingredients such as wheat, milk, gluten, soy, corn, egg, or artificial colors or flavors.

● Provides hypo-allergenic fibers from Rice Bran, Apple Fiber, Prune Fiber and Lemon Fiber. Rice Bran fiber has healing properties of its own, and it is naturally rich in anti-oxidants, helps modulate T-lymphocytes, and is credited with positive effects against cancer, tuberculosis, allergies, psoriasis, lupus and other immune-related concerns.

- Easy to mix and use as required.
- Non-genetically modified ingredients.
- **Accell<sup>®</sup>** contains an herbal base of blended ingredients that work together to provide natural synergists and phytonutrients.

**ACCELL<sup>®</sup>, ANOTHER SYSTEMIC FORMULA; "The One's That Work!"**

**Accell® provides nutritional support for the foundation of every natural health program. It is a carefully-compounded, nutritionally-enhanced, Wheelwright balanced, pleasant tasting, powdered, nutritional beverage designed for the nutritional support of four key body systems:**

- 1. The Healing Triad (Digestion, Intestines, Live);**
- 2. Glucose Metabolism (Pancreas, Liver, Insulin/Glucagon axis)**
- 3. Immune-Inflammatory processes (Allergies, Auto-Immune, and Inflammation)**
- 4. Weight Management (Pro-Vita Diet Nutrition)**

**● The Healing Triad**

As a foundation of the Healing Triad, Accell is suitable for people with Leaky Gut Syndrome - a condition wherein fine leaks in the small intestine are linked with auto-immune and allergic concerns including:

Food allergies / Asthma / Fatigue / Arthritis / Myalgia / Parasites / Diabetes / Irritable/Inflammatory bowel  
Environmental allergies

**Accell®** is designed to break the pattern of poor intestinal integrity and to replenish a healthy immune system barrier in the intestines.

**● Glucose Metabolism**

In an era of refined, hyper-enhanced sugar foods (refined carbohydrates), the human blood sugar regulating system is experiencing unprecedented levels of stress. **Accell®** is designed to provide a balanced protein/carbohydrate blend for a proper insulin/glucagon food response.

**Accell®** provides nutritional support for people suspected of insulin resistance and glucose metabolic concerns especially when combined with Doc. Wheelwright's Pro-Vita Diet.

**● Immune-Inflammatory Processes**

Chronic inflammation, a condition affecting millions of people, leads to chronic degenerative disease. It is commonly found in the:

**Intestines**

- Irritable Bowel Syndrome
- Colitis
- Spastic Colon
- Inflammatory Bowel
- Crohn Disease
- Malabsorption

**Joints**

- Arthritis, Osteo and Rheumatoid

**Lungs**

- Bronchial asthma
- Respiratory allergies
- Susceptibility to
- Pneumonia,
- Bronchitis,
- Colds, Flu

**Accell®** can be used as support in programs addressing the inflammatory processes.

**● Weight Management**

For over 15 years, long before America got on the high protein, anti-carbohydrate craze, the Wheelwright Pro-Vita Diet was helping people lose weight. It first improved their dietary health by gently shifting metabolism into the glucagon "fat burning" mode through a proper balance of macro-nutrients.

**Accell®** is a Pro-Vita meal in powder form that is mixed with water and taken with additional fiber and essential fatty acids to create a nutritious meal replacement.
